Join our workshop

Comprehensive aesthetic care with the Invisalign system & iTero Element digital workflow

Join us at the EAED Congress in Munich on the 24th of May for the workshop “Comprehensive aesthetic care with the Invisalign system and iTero Element digital workflow”. Renowned dental professionals will speak about different applications of the Invisalign system and the iTero scanners in improving processes and workflows in a dental practice while achieving less invasive and more durable outcomes – along with improving patient communication, educating and helping them visualize their treatment goals.

Technological advancements are changing the way that dental practices operate and we believe that dental practitioners’ access to the best tools to tackle the digital challenge will greatly benefit the patient.

Dr. Rafi Romano will host a session with speaker Dr. Hannu Vesanen, uncovering the daily applicability of the Invisalign System and iTero Element digital workflow in your practice.
**Dr. Hannu Vesanen**

Dr. Hannu Vesanen has Finland’s leading and most respected family owned cosmetic Dental Clinic. He runs Clinics in two cities in Finland focusing on minimal invasive cosmetic dentistry. He got heavily involved with pre cosmetic aligning. He has been a member of American Academy of Cosmetic Dentistry (AADC) since 2006. He got his well respected AADC Accreditation status in 2017. He is also a member of European Invisalign Esthetic Advisory Board and acts as an active member of numerous Doctor panels. Dr. Vesanen started Invisalign in 2011 and is now a Diamond Provider. He has participated in numerous international trainings and courses and now works with leading Ceramists from California.

**Dr. Rafi Romano**

Dr. Rafi Romano is a specialist in orthodontics and dentofacial orthopedics, earned at The Dental Faculty, Hebrew University, Hadassah Jerusalem. He maintains a private orthodontics practice in Tel Aviv, Israel, with an emphasis on adult and esthetic orthodontics. Dr. Romano is an ambassador of the American Association of Orthodontists (AAO) representing the Israel Orthodontic Society.
